PECB

**OHSAS 18001 Lead
Auditor**

WHY IS OCCUPATIONAL HEALTH AND SAFETY MANAGEMENT IMPORTANT FOR YOU?

- Occupational health and safety management needs to be of primary concern for organizations that are eager to have an incident-free workplace. As such, OHSAS 18001 lists the requirements for all organizations regardless of their size or nature of business. These requirements will lead to improved communications, both internally and externally, and will increase awareness of the health and safety matters in the workplace.
- By becoming OHSAS 18001 certified, you will demonstrate your ability to meet the necessary health and safety requirements, and your commitment to improve the policies and attain competitive advantage to your stakeholders. Moreover, with OHSAS 18001, you will gain worldwide recognition, which can potentially lead to an increase in business deals and professional network.

If you are passionate about the field and want to develop skills needed to prove your competency in the role, this program will help you get there.

Course Outline

OHSAS 18001 Lead Auditor

Overview

OHSAS 18001 is an international standard on occupational health and safety which was designed to help organizations identify, control and minimize their health and safety risks. The standard provides a framework which specifies the necessary policies and procedures that an organization should follow in order to establish the best working environment and prioritize the health and safety of its employees.

Learning Outcomes:

Upon completion of this course, you should be able to:

- Understand the operations of an Occupational Health and Safety Management System (OHSMS) based on OHSAS 18001
- Acknowledge the correlation between OHSAS 18001, OHSAS 18002 and other standards and regulatory frameworks
- Understand an auditor's role to: plan, lead and follow-up on a management system audit in accordance with ISO 19011
- Learn how to lead an audit and audit team
- Learn how to interpret the requirements of OHSAS 18001 in the context of an OHSMS audit
- Acquire the competencies of an auditor to: plan an audit, lead an audit, draft reports, and follow-up on an audit in compliance with ISO 19011
