WHY TAKE NEBOSH AWARD IN ENVIRONMENTAL AWARENESS AT WORK?

This qualification will benefit organisations who are seeking to implement an EMS. This qualification gives you the opportunity to improve your understanding of environmental management. By raising awareness of common environmental impacts and highlighting ways to control them, you can improve the environmental culture and performance of your organisation.

Overview

The NEBOSH Environmental Awareness at Work qualification is designed to cover a range of issues affecting the global environment.

Topics include:

- Basic environmental terms and their meaning
- Sources, impacts and controls of air, water, noise and land pollution
- Dealing with environmental emergencies
- Introducing environmental impact (risk) assessments
- Introduction to Environmental Management Systems

Course Details:

Certificate: NEBOSH UK

Duration: 10 Hrs. 2 days

Assessment: Written Examination (Multiple-Choice Examination)

Target Audience:

Anybody who needs a basic understanding of environmental issues in the workplace. It provides a general awareness of environmental issues and can be taken by employees at all levels within the organisation.

This qualification is for anyone who needs to gain a basic understanding of environmental impacts and risk control. It provides an introduction to implementing ISO 14001. It is an environmental qualification for learners with no prior knowledge of the subject required.

Admission/Entry Requirements

- There are no specific requirements in terms of academic qualifications, skills, or experience to entry to NEBOSH Award in Environmental Awareness at Work programme
- Examination is in English.
- Other internal requirements such as documents needed are at the discretion of STC.

Course Outline:

Week	Content
1	<ul style="list-style-type: none">1.1 Identify the meaning of: the environment; weather; climate; habitats; ecosystems; biodiversity; pollution; sustainability1.2 Identify the importance and benefits of sustainable development1.3 Identify an environmental management system's main components and the certification process.2.1 Outline the principles and practice of impact assessments2.2 Identify the main sources, types, controls and impacts of air pollution
2	<ul style="list-style-type: none">2.3 Identify the main sources, controls and impacts of water pollution2.4 Identify the main sources, controls and impacts of environmental noise2.5 Identify waste types2.6 Identify the waste hierarchy and ways to effectively manage waste2.7 Outline the measures that need to be in place when dealing with emergencies.

Learning Outcomes:

Element 1

- 1.1 Identify the meaning of: the environment; weather; climate; habitats; ecosystems; biodiversity; pollution; sustainability
- 1.2 Identify the importance and benefits of sustainable development
- 1.3 Identify an environmental management system's main components and the certification process.

Element 2

- 2.1 Outline the principles and practice of impact assessments
- 2.2 Identify the main sources, types, controls and impacts of air pollution
- 2.3 Identify the main sources, controls and impacts of water pollution
- 2.4 Identify the main sources, controls and impacts of environmental noise
- 2.5 Identify waste types
- 2.6 Identify the waste hierarchy and ways to effectively manage waste
- 2.7 Outline the measures that need to be in place when dealing with emergencies.

Benefits to Employers:

Improved environmental performance – Implementing a successful Environmental Management System such as ISO 14001 requires workers to recognise the impact they have on the environment. The NEBOSH Environmental Awareness at Work qualification will introduce your workforce to environmental issues and the role they can play in improving organisational environmental performance.

Return on investment – Employees can apply their learning as soon as they return to work. This could help your organisation reduce waste, improve energy efficiency, achieve cost savings and help avoid legal action

Assurance – With global industry needing to be more aware of its impact on the environment, a business with a sound environmental record has an advantage in the modern market place.

Progression route and further studies:

By pursuing NEBOSH Award in Environmental Awareness at Work, the progress route will be a Certificate-level qualification:

- 1- NEBOSH International Technical Certificate in Oil and Gas Operational Safety.
- 2- NEBOSH Environmental Management Certificate.
