NEBOSH

**International General Certificate in
Occupational Health and Safety**

Your Route to Tech IOSH!

Aim High Career Goals...

WHY TAKE NEBOSH INTERNATIONAL GENERAL CERTIFICATE IN OCCUPATIONAL HEALTH AND SAFETY?

Thousands of leading experts and organisations have helped us update the most widely respected health and safety qualification of its kind in the world. This means that it's designed to reflect the needs of today's employer giving learners everything they need to know and do to make their workplace safer.

- NEBOSH IGC is also suitable for those embarking on a career in health and safety providing a sound basis for progression on to the international diploma.

Overview

The NEBOSH International Certificate provides comprehensive details on the fundamentals of occupational safety and health promoting the highest standards on safety and health. The syllabus is based on advanced, highly technical and internationally certified and recognized standards and best practices.

Learning Outcomes:

Upon completion of this course, the participants should be able to:

- Justify the need for health and safety improvements;
- advise on the main duties for health and safety in the workplace;
- help their organisation to manage contractors;
- work within a health and safety management system;
- positively influence health and safety culture and behaviour;
- carry out a general risk assessment (using a 5-step approach) of their workplace;
- recognise workplace changes and their impacts and understand how to minimise these impacts;
- develop basic safe systems of work that include emergency arrangements and know when to use a permit-to-work system;
- take part in incident investigations; and
- help their employer check the effectiveness of the health and safety management system through monitoring, auditing and review.
